Western Hemisphere Discovered Just 423 Years Ago Today and Nation Observes Day.

This is Columbus Day. Four hundred and twenty-three years ago the Italian discoverer first set foot on the western hemisphere, and today the inhabitants of thirty-one Commonwealths in the United States are enjoying a legal holi-day, and cyclebrating. day and celebrating.

Although not a legal holiday in the District. the day was marked by the closing of the Washington Stock Ex-change. The Italian societies of the Wational Capital, who usually observe Wational Capital, who usually observe folumbus Day with a parade and banquet, arranged no celebration this year because hundreds of thousands of their brethren are engaged in war, and they are not in a jubilant mood.

A large wreath of flowers was placed on the Columbus statue in front of lines station to the feature are

Criticism of the "loan shark" law, of the method by which the United States Government is alleged to receive one-half of all District taxes, and of the system whereby the Treasury Department loans moneys received from the District Government to the banks on 2 per cent interest, also featured the meeting which was called to order by President Evan H. The attack on the Commissioners' action disapproving the recommendation of the condemnation board relating to the site for the New Eastern High School was led by Dr. Starr Parsons, chairman of the committee on schools, who contended that the condemnation board's estimates for the property were not excessive.

Grandma Used Sage Tea and Sulphur to Darken Her Hair and Nobody Knew.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy, and abundant. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a 50-cent bottle of "Wyeth's Nage and Sulphur Compound" you will get this famous old recipe which can be depended upon to restore natural color and beauty to the hair and is aplendid for dandruff, dry, feverish, itchy scaip, and falling hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark, glossy, soft, and abundant.—Advt. glossy, soft, and abundant.-Advt.
